

SR400-SR400 HS

The SR 400 horizontal flow wrapper is designed to be integrated in fully automatic packaging lines being able to achieve high production speed. This machine, designed to satisfy the most exigent requirement in the food industry, can be implemented with the proper feeding systems according to the products to be packed such biscuits, chocolate bars, muffin, etc. Managing software has been purposely designed to minimize operator's intervention during production. One controller commands all axis and it is interfaced with the revolving arm to facilitate the operator's work. Several optional accessories can be installed to meet a wide range of customer's needs, such as: automatic film replacement and junction, empty or double bags rejecting system, motorized film roller, crumbs aspiration system, etc. The SR 400 range of machines includes the HS model, which is able to achieve up to 600 b/min. and the SR 400, up to 400 bpm.

SCAN ME

Performance up to 400 or 600 bpm

Stainless steel structure

Full compatibility with different types of loading systems

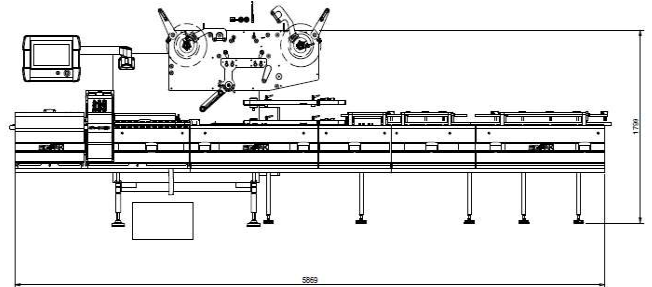

Automatic film replacement and junction to reduce production stops

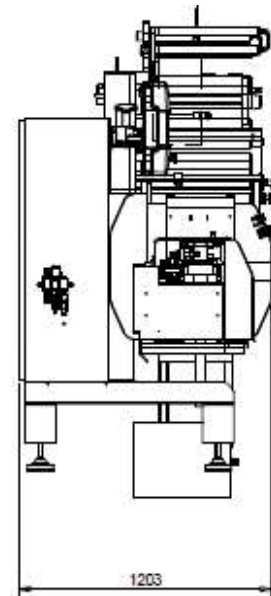

Technical Data

Max mechanical speed	Up to 400 or 600 bpm
Reel's max external Ø	350 mm / 13,78"
Reel's min width	80 mm / 3,15"
Reel's max width	400 mm / 15,75"
Sealing wheels	4
Sealing jaws	2 (3 or 4 optional)
Packaging materials	Polypropylene, coupled, metallized, pearled and cold seal films
Electrical supply	380V, 3F + N + G, 50 Hz
Compressed air	Min 6 bar
Compressed air pipe	8 mm
Installed power	20 kW
Structure's material	Stainless steel AISI 304
Weight	~ 1300 Kg

Options

- Printer
- Feeding system according to the product
- Automatic film roll replacement and junction
- Motorized pulling film
- Longitudinal sealing group air-suction
- Cold seal Kit
- Pre-heating
- Three of four cross sealing jaws
- Double bag rejection device
- Empty bag rejection device
- Remote control device
- Air conditioning on electrical cabinet
